your telephone number is important

When your telephone number is preceded by your area code, it is the only one like it in the United States or Canada. When leaving your telephone number for someone else to call you be sure to include the Area Code, if the caller will be calling from a different telephone area than your own [see pages 7, 8, 9].

Numbers are most easily understood if they are given to others as "area code 3-1-7 [pause] 5-4-5 [pause] 5-2-8-9." When writing your telephone number, separate it like this: area code 317 545-5289.

If you're a businessman it's smart to make it easy for your customers to reach you. Show your telephone number on your stationery, statements and all advertising pieces. Show your area code too—it helps distant parties call you faster.

A pamphlet explaining where and how to display area codes is yours for the asking—just call your local business office.

tours and visitors

Visitors are always welcome at the Telephone Company. Special tours can be arranged for school or other groups who would like to see the inside of the fascinating world that makes our telephone serve us so well. To make arrangements for a visit, simply call your local Telephone Business Office.

out-of-town directories

Directories of other cities may be obtained by calling your local Business Office.

Telephone directories of the principal cities and towns in the United States may be consulted at our Business Office.

telegrams by telephone

You may telephone telegrams, cablegrams or radiograms from your home or business phone to the Western Union Telegraph Company. See instructions shown under the listing of the company in this directory. The telegraph charges will appear on your telephone bill. You may also telephone your telegrams from coin phones by dialing "Operator" and asking for "Western Union." Pay as you do for a telephone call.

automatic answering set

Certain telephones are equipped with an automatic device, known as an automatic answering set, which answers the telephone mechanically. It then makes a recorded announcement. If your call is answered by an automatic answering set, listen carefully for the announcement which will be self-explanatory. Some sets will also record a message from the caller.

customer provided equipment

Equipment, apparatus, devices or systems not furnished by the Telephone Company may be used with the Companies' telephone instrument and associated equipment provided such use complies with the Company's tariffs. These tariffs are designed in the interest of good telephone service and to prevent hazards to customers and Company employees.

tariffs

"Tariffs which are on file with the Public Service Commission of Indiana showing rates, rules and regulations are available in our business office for public inspection."

when you hear a "beep" tone

A short "beep" tone heard on your telephone line about every 15 seconds means that the person with whom you are talking is recording your conversation. This signal is provided by the telephone company for your protection. Use of a recorder without recorder-connector equipment containing a tone-warning device is contrary to the company's tariffs and is not permitted. If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine. When it is disconnected, you will no longer hear the "beep" tone.

employee identification cards

For your protection, any employee who visits the customers premises carries an official identification card showing his or her name and signature. If you have the slightest doubt about anyone who says he's from the telephone company, please ask to see his card.

directory listings

Every effort is made to make the directory as accurate as possible. The company is not liable for damages arising from errors or omissions in free listings. Its liability in the case of paid listings shall not exceed the charge for such listings during the life of this directory.

If you cannot find the number of the party you seek in either section of this directory, please call directory assistance (information).

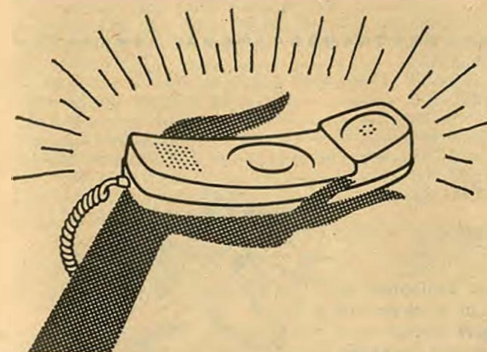

• — for information about any telephone service not shown on this page, call your local business office, and ask for your service representative; she will be glad to help you.
